

Delivering powerful, compliant, and cost-effective SAM solutions for federal agencies.

Demonstrate Savings, Efficiencies, and Compliance Amid Workforce Changes

Staffing reductions create opportunities to cut software costs—but managing assets with fewer resources increases financial and compliance risks. ISAM helps agencies maximize savings, optimize software, and ensure compliance with a low-cost SAM Maturity Audit.

Current Challenges Facing Federal Agencies

- Unclear employee, hardware, and software status
- Compliance risks from improper license reassignment
- Overpayment due to outdated licenses
- Limited SAM expertise to identify inefficiencies
- Insufficient resources to build or maintain a SAM program

Amid workforce changes and budget constraints, agencies can adopt smarter SAM strategies to increase savings, efficiencies, and maintain software control.

OUR SOLUTION

Software Asset Management (SAM) Maturity Audit

ISAM, in partnership with Riva Solutions, helps agencies navigate staffing challenges by providing full visibility into software assets, reducing spending, and ensuring compliance. Our (SAM) Maturity Audit establishes the foundation for a structured, cost-effective SAM program, identifying gaps, evaluating existing processes, and delivering a clear roadmap for improvement.

Our Proven 5-Step Approach

Data Capture

Are all critical data elements being captured?

Data Repository

Where and how is data stored?

Software Inventory

Are deployment and entitlement records accurate?

Position Reporting

Are Effective License Position (ELP) reports up to date?

Governance

Who oversees costs, licensing risks, and software lifecycle management?

Key Benefits

1

Cost-Effective Assessment

Low-cost evaluation to identify savings opportunities and compliance risks

2

Actionable Roadmap

Essential steps for an effective SAM program

3

Streamlined Review

4-6 week assessment with minimal disruption

4

Cost-Benefit Analysis

Understand implementation costs, potential ROI, and risks of inaction

5

Improved Compliance Oversight

Enhanced visibility to ensure license compliance while saving costs

Exclusive Offer

ISAM, in partnership with Riva Solutions, is offering Federal Agencies a \$9,500 SAM Maturity Audit, providing key insights to strengthen compliance, reduce costs, and optimize software management, all with minimal resource strain and no lengthy contracting processes.

Start Saving Today

Why ISAM?

With decades of experience supporting over 75 federal, state, and local agencies, ISAM is a trusted SAM partner. Our proprietary GreenBookSM tool, leveraging over 100 million software cost and licensing data points, delivers precise, data-driven insights to reduce spending and optimize software investments.

Why Riva Solutions?

ISAM is proud to partner with RIVA Solutions to deliver SAM Maturity Audits, SAMaaS and other ISAM Services & products to federal agencies. With deep expertise in IT service management, federal procurement, and software lifecycle support, RIVA enhances ISAM's hands-on approach by providing experienced personnel, scalable support, and proven methodologies. Together, we help agencies modernize their SAM programs, strengthen compliance, and achieve measurable savings and efficiency.
