

●● UNITED STATES PATENT AND TRADEMARK OFFICE

## Business Oriented Software Solutions (BOSS)

The United States Patent and Trademark Office (USPTO) Business Oriented Software Solutions (BOSS) contract is an indefinite delivery, indefinite quantity (IDIQ) contract to provide services and expertise, primarily in the form of Agile Teams, in support of development, modernization, enhancement, operations, and maintenance of USPTO products which are comprised of both legacy and modernized components.

RIVA Solutions is a prime small business contract holder and one of five (5) on the BOSS IDIQ which has a \$2B ceiling and ordering period of up to ten (10) years, available through May 1, 2032. Task orders may be issued on a time and materials (T&M), labor hour (LH), or firm fixed price (FFP) basis.

Contract No. 1333BJ21D00280003

### Core Capabilities

**Agile Product Delivery & Application Modernization**

**Outcome-Driven Product Management**

**Cloud Migration & Cloud-Native Engineering**

**DevSecOps & Platform Engineering**

**Data Engineering & Hyperautomation**

### Architecture & Governance

**Enterprise & Solution Architecture**

**Technical Reference Architecture Alignment**

**Configuration, Release, and Compliance Engineering**

### User Experience & Program Support

**Human-Centered Design**

**Agile Portfolio & Program Management**

**Operations & Maintenance Support**

**Security Risk Management (cATO)**

RIVA Solutions is uniquely positioned to help USPTO accelerate cloud migration efforts, reduce friction in the developer experience, and drive adoption of the agency's established Technical Reference Architecture.

Through our proven Optimal Outcomes™ framework, we meet teams where they are and tailor support to move modernization efforts forward with speed and intention. We work in close alignment with the OCIO's centralized vision, ensuring that modernization is a repeatable, scalable reality. By providing developers with clearly defined guardrails, accessible tools, and streamlined workflows, we empower product teams to move faster while remaining compliant and secure.

**Together let's transform outputs into outcomes and strategy into reality.**

## Outcomes In Action

### USPTO PATENT TRIAL AND APPEAL CASE TRACKING SYSTEM (P-TACTS)

RIVA is supporting the U.S. Patent and Trademark Office (USPTO) in modernizing the Patent Trial and Appeal Case Tracking System (P-TACTS), a secure platform for managing patent disputes. As part of a phased migration strategy, RIVA is transitioning P-TACTS from traditional on-premises infrastructure to a flexible and scalable cloud environment. This modernization effort includes rearchitecting legacy applications into microservices, enhancing data management capabilities, and improving authentication and access control. By using this approach, P-TACTS is on an accelerated path to be fully cloud-based, delivering improved performance, strengthened security, and greater long-term maintainability aligned with USPTO OCIO strategic vision.

## Teaming Partners

- Business Performance Systems (BPS)
- Oddball
- Abeyon
- Epsilon, Inc.
- Ascella Technologies, Inc.
- K3 Solutions
- Starry Associates, Inc.
- Excella, Inc.
- Sonora & Associates, Inc.
- Ascolta
- Sapiient Government Services, Inc.
- Evolver
- Swain Techs
- Sabre Systems, Inc.
- Insight Global
- REI Systems, Inc.
- A3 Consulting
- Reed Tech
- ASRC
- Ambit Group
- Z, Inc. (Z Federal)
- Akytech Consulting
- M9 Solutions
- BridgePhase
- Signature Consulting Group (SCG)
- Red River Technology
- XOR Security
- Sky Technologies
- World Wide Technology (WWT)

## Technology Stack

- AWS
- Acquia
- Microsoft Azure
- Oracle
- ServiceNow
- Zscaler
- Appian
- Google Cloud
- Salesforce
- Tableau
- UIPath
- GitLab
- Snowflake
